

```
function myFunction(){  
    alert("Message-1");  
}
```

```
function myFunction(){  
    alert("Message-2");  
}
```

// Eg:1

/*

```
var element=document.querySelector("#myBtn");  
element.addEventListener("click", ()=>{  
    alert("Event-1");  
});
```

```
element.addEventListener("click", ()=>{  
    alert("Event-2");  
});
```

```
element.addEventListener("click", ()=>{  
    alert("Event-3");  
})  
*/
```

// Eg:2

```
var element=document.querySelector("#myBtn");  
element.addEventListener("click", myEvent1);  
function myEvent1(){  
    alert("Event-1");  
}
```

```
element.addEventListener("click", myEvent2);  
  
function myEvent2(){  
    alert("Event-2");  
}
```

```
element.addEventListener("click", myEvent3);  
  
function myEvent3(){  
    alert("Event-3");  
}
```

```
element.removeEventListener("click", myEvent2);  
element.removeEventListener("click", myEvent1);
```
